

# NOURISH. PERFECT. REPAIR. PROTECT.

With our signature **BARE-LY THERE** finish.

The natural mani (or pedi) uses a hydrating base coat, like **HEALING Hydration** along with vitamin packed **PERFECT Petal Pink** for a flawless finish.

Despite the subtle results, the signature finish will protect your nails and cuticles and prevent cracks, splits and yellowing.

## MEET THE SIGNATURE NATURAL ADDITIVES THAT SET DR.'S REMEDY APART.

### TEA TREE OIL

A potent essential oil with exceptional antiseptic and antifungal qualities.

### GARLIC BULB EXTRACT

A unique and powerful antibacterial, antifungal and antiviral that is also a rich source on sulphur, zinc, and calcium.

### VITAMIN C

A nourishing antioxidant that helps strengthen skin and nails.

### WHEAT PROTEIN

A source of plant protein that helps retain moisture and improves shine.

### BIOTIN

A group of key nutrients that noticeably support growth and overall nail health.

### CACTUS EXTRACT

A vitamin-rich antioxidant that calms inflammation and continuously hydrates.

### GINSENG EXTRACT

A detoxifying herb known to boost skin regeneration and blood circulation.

### GRAPE SEED EXTRACT

A power-packed extract with nourishing oils that moisturizes cuticles and supports healthy nail growth.

### KALE EXTRACT

The perfect balance of omega-3 and omega-6 in kale helps maintain superior nail strength.

### LAVENDER

A highly effective antifungal, lavender can drastically cut down on antifungal-resistant infections.

### SAFFLOWER

Proven to aid in nail growth, safflower seeds and oil are rich in vitamin E and unsaturated fatty acids, two important compounds for healthy hair, skin and nails.

IT'S THE **#1 DOCTOR-RECOMMENDED** NAIL POLISH FOR A REASON!

Say **YES** to wellness and **NO** to:

### 1 FORMALDEHYDE

Long term or repetitive exposure can lead to asthma and damage to the inner nose and throat lining.

### 2 ETHYL TOSYLAMIDE

Has been banned in the EU (but not in the US) from personal care products, because of its antibiotic properties and concerns over its antibiotic resistance.

### 3 TOLUENE

Affects the brain and nervous system, but animals exposed to toluene also show harmful effects in their liver, kidneys, and lungs.

### 4 CAMPHOR

One of the ingredients responsible for the sharp, bitter odor of nail polish, but it can also cause nails to become chronically dry, brittle, and discolored. Camphor is easily absorbed through broken skin and can reach toxic levels in the body.

### 5 FORMALDEHYDE RESIN

Formed from the reaction of toluenesulfonamide and formaldehyde. Sensitivity to the resin may cause allergic contact dermatitis.

### 6 XYLENE

Has not been verified as a carcinogen yet, but has an immediate impact on the body. Side effects include headache, dizziness, nausea, and more.

### 7 PARABENS

Of greatest concern is that parabens are known to disrupt hormone function, an effect that is linked to increased risk of breast cancer and reproductive toxicity.

### 8 TPHP

Triphenyl phosphate is a chemical that when absorbed in the human body, affects hormones and can have effects such as obesity and early puberty.

### 9 PHTHALATES

Pronounced THAL-ates, these chemicals, which are linked to endocrine disruption, developmental and reproductive toxicity, and cancer, have been banned from cosmetics in the European Union, but still remain prevalent in U.S. products.

### 10 ANIMAL PRODUCTS

Ingredient names such as guanine, tallow, gelatin, milk, lanolin, honey, beeswax, royal jelly, and carmine, are all derived from our animal friends. The process of deriving these ingredients can often kill or torture the animals in the process.

# THE PROOF—IS IN THE POLISH

LAB TESTED AND PATIENT APPROVED, DR.'S REMEDY RESULTS SPEAK FOR THEMSELVES:

## HEALING

### HEALING Hydration Clear Moisture Nail Treatment

Enriched with tea tree oil, wheat protein, garlic bulb extract, plus strength-enhancing Pentavitin, this nourishing conditioner drenches nails with continuous supply of moisture to help maintain flexibility and prevent breakage.

STRONGER SMOOTHER NAILS IN 14 DAYS

HEALING Hydration Clear Nail Treatment

### USER TRIAL RESULTS\*

of users said nails felt stronger

of users said nails appeared more hydrated

of users said they would recommend to a friend

BEFORE AFTER

BEFORE AFTER

\*This study was undertaken across 50 panelists of varying ages according to the criteria as stipulated under EU Commission Regulation No. 655/2013 for the justification of cosmetic claims.

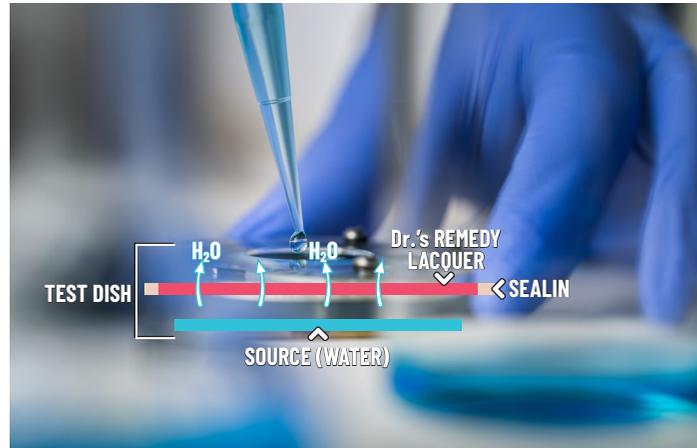

"I loved that my nails improved after the 1st week. They were stronger and not splitting. It (Hydration) also improved the texture of my nail as I had a lot of ridges and now they are less visible. I also love the nice shine this product gives to your nails, it makes them look really healthy. I have told friends and they are very keen to try the product for themselves" - 2017 USER TRIAL PARTICIPANT

## PERMEABLE

### THE COLOR COLLECTION THAT LOOKS AS GOOD AS IT MAKES YOU FEEL

*The ultimate in good-natured nail care,* Dr.'s REMEDY multitasking lacquers breathe new life into everyday manis and pedis—literally.

### MOISTURE CUP PERMEABILITY TEST\*

Brimming with natural botanicals and organically sourced actives, new studies have proven Dr.'s REMEDY lacquers to be both **oxygen and moisture permeable**, making them compatible with anti-fungal medications as well as a prayer-safe/Halal-friendly polish option.

\*Moisture permeability studies have been conducted in our laboratory using the method indicated. It's been concluded that our films are permeable to moisture vapours and air gases (oxygen). Proving the passage of moisture through our formula, helps conclude that anti-fungal medications in liquid form do in fact, penetrate the nail polish. Additionally, those engaging in religious prayer will find that water is not blocked by the wear of our polishes.

\*\*Oxygen permeability (breathability) is important so that a fungal condition is not encouraged to develop under the polish.

"Remedy is the only nail care line I can use with an anti-fungal topical, it doesn't fade and is super effective even with my gorgeous pedicure in tact" - SHARON, LONG ISLAND, NY

## EFFECTIVE

### Anti-fungal CARESS Cuticle Oil

Formulated with a trio of nourishing natural oils for supreme conditioning and intense hydration, this transformative treatment revives dry nails and cracked cuticles on contact. Fast-absorbing with no greasy-feel, the luxe yet-lightweight drops are an effective first line of defense against nail fungus.

WHITER NAILS IN LESS THAN 12 WEEKS

### USER TRIAL RESULTS\*

reported whiter looking nails

noted improvement in health and appearance of their cuticles and nails

remarked on the increased ability to grow stronger nails

experienced a decrease in splitting and peels of cuticles and nails

BEFORE AFTER BEFORE AFTER
